

Skeleton Coast Uranium to Present at Red Cloud's Fall Mining Showcase 2026

Vancouver, British Columbia, October 22, 2026 – Skeleton Coast Uranium Corp. (the “**Company**” or “**Skeleton Coast Uranium**”) (TSXV: **SKEL**) (OTC: **GLIIF**) (FRA: **KDM0**), a resource company focused on discovering Namibia’s next major uranium deposit, is pleased to announce that it will present at Red Cloud's Fall Mining Showcase 2026. Shareholders and interested parties are invited to attend the event and learn more about Skeleton Coast Uranium, one of the largest exploration license holders in the Erongo Region of Namibia.

The annual conference will be hosted in-person, at the Omni King Edward Hotel, Toronto on October 28 and 29, 2026, bringing together investors, mining companies and industry leaders.

Dr. Nathan Chutas, CEO of Skeleton Coast Uranium, will be presenting on Thursday, October 29, 2026 at 10:20 AM Eastern Standard Time.

For more information and/or to register for the conference please visit:

About Skeleton Coast Uranium Corp.

Skeleton Coast Uranium Corp. holds options to acquire 70–75% controlling interests in five Exclusive Prospecting Licenses (EPLs) located in the Erongo Region of Namibia, a country which accounted for approximately 12% of global mined uranium production in 2024 (World Nuclear Association). The EPLs cover 610 km² and position the Company as one of the largest license holders in the region. All of the concessions are reported in historical records to host uranium mineralisation (unverified historical information; see Technical Information) and are located either adjacent to, or within approximately 30 km of, one of the region’s three uranium mines (i.e. Langer Heinrich, Rössing or Husab); see Technical Information. Under the terms of its option agreements, Skeleton Coast Uranium is required to incur CAD\$5 million in exploration expenditures across the five EPLs by June 2028.

Skeleton Coast Uranium trades on the TSX Venture Exchange under the symbol ‘**SKEL**’, on the OTC under the symbol ‘**GLIIF**’, and on the Frankfurt Stock Exchange under the symbol ‘**KDM0**’. Additional information about Skeleton Coast Uranium can be found at www.sedarplus.ca and at www.skeletoncoasturanium.com.

Forward-Looking Information

This news release may contain certain “forward-looking information” or “forward-looking statements” within the meaning of applicable Canadian securities laws and the United States Private Securities Litigation Reform Act of 1995. When or if used in this news release, the words “anticipate”, “believe”, “estimate”, “expect”, “target”, “plan”, “forecast”, “may”, “schedule” and similar words or expressions identify forward-looking statements or information. Forward-looking statements or information in this news release may relate, but are not limited to, the intended use of proceeds from the Offering, the receipt of regulatory approvals for the Offering; the Company’s future exploration plans, expenditures and objectives in Namibia, including the results thereof; expectations regarding risk diversification; and allocation of funds to marketing and investor relations activities. Such statements represent the Company’s current views with respect to future events and are necessarily based upon a number of assumptions and estimates that, while considered reasonable by the Company, are inherently subject to significant business, economic, competitive, political and social risks, contingencies and uncertainties, including, without limitation, the availability and accuracy of historical technical data; the Company’s ability to continue planned exploration programs; and general geological, operational and market conditions. Many factors, both known and unknown, could cause results, performance, or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements. The Company cautions readers that forward-looking statements, including without limitation, those relating to the Company’s exploration activities, technical studies and future plans, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, including, without limitation, limitations on the verification or interpretation of historical data; exploration results that differ from expectations; and risks inherent in mineral exploration activities in Namibia. The Company does not intend, and does not assume any obligation, to update these forward-looking statements or information to reflect changes in assumptions or changes in circumstances or any other events affecting such statements and information other than as required by applicable laws, rules and regulations.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
